## RELIEF

Broad-spectrum pain relief

## ANTI-INFLAMMATORY

Homeopathic ingredients modulate the underlying inflammatory cascade

## RECOVERY

Stimulates tissue re-growth and supports the production of stem cells

### What is Celeragesic?

**Celeragesic** is a highly effective homeopathic combination for reducing the pain and inflammation associated with acute injuries of the musculoskeletal system. Many of the foundational ingredients in **Celeragesic** have been used effectively for over 80 years by helping to down-regulate inflammation, reduce swelling, and speed tissue regeneration while acting as a powerful analgesic.<sup>1</sup> **Celeragesic's** advanced formulation takes fighting pain to the next level with thirteen new, scientifically advanced ingredients for promoting pain reduction and speeding recovery time. Available in oral drops and a topical gel, the ingredients in **Celeragesic** provide potent pain-fighting effects without the negative side effects of traditional OTC pain relievers.

### Celeragesic vs. Traditional OTC Pain

Chronic pain is one of the most prevalent health problems in the United States and surveys indicate that pain resolution is one of the most popular reasons patients turn to complementary and alternative medicine.<sup>2</sup> Homeopathy has been clinically proven to provide an effective means for controlling pain without the negative side effects of pain medications, including gastric bleeding, increased risk of cardiovascular events, and addiction.<sup>1</sup>

The foundational ingredients in **Celeragesic** are similar to those in **Traumeel®**, an extensively researched homeopathic remedy that has been consistently shown to provide relief similar to that of non-steroidal anti-inflammatory (NSAIDs) medications without the negative side-effects.<sup>1</sup> **Celeragesic** builds on this paramount formulation by incorporating 13 new homeopathic ingredients to provide increased support for tissue regeneration, pain reduction, and cellular respiration while better equipping the body to handle stress. The result is a superior homeopathic approach which provides acute-pain relief and increased support of recovery pathways.

**Celeragesic** is more than just a "band-aid." It provides a diverse array of homeopathic ingredients to control pain, down-regulate inflammation, reduce swelling, and slow bleeding while simultaneously supporting tissue regeneration.

### Supplement Facts

Serving Size: 0.5 ml (approximately 10 drops)  
Servings Per Container: 60

#### Amount per Serving

Arnica montana	4-12-30-200X
Aconitum napellus	3X

Mercurius solubilis	8X
Bryonia alba	4X
Rhus toxicodendron	6-12-30X
Rescue remedy	8X
Carbo vegetabilis	12X
Sarcocactic acid	8X
Co-enzyme A	8X
ATP	8X
Unichinon	8X
Nadidum	8X
Morgan pure	30C
Funiculus umbilicus	12X
Glandula suprarenalis	12X
Thalamus	12X

**Suggested Use:** As a dietary supplement, take 10 drops under tongue 1-3 times per day or as directed by a healthcare professional. Also available as a topical gel.

Quality Homeopathic Formulated  
Exclusively for Healthcare Professionals

Serving Healthcare Practitioners  
for Over 20 Years

**Promote Pain Relief** – A multitude of homeopathic ingredients indicated in broad-spectrum pain relief. Bryonia alba, rescue remedy, and rhus toxicodendron were incorporated specifically to target joint pain and inflammation.

- Calendula officinalis
- Hamamelis virginiana
- Bryonia alba
- Rescue remedy
- Co-Enzyme A
- Aconitum
- Hypericum perforatum
- Rhus toxicodendron
- Sarcosolactic acid
- ATP

**Anti-Inflammatory** – Homeopathic ingredients to modulate the underlying inflammatory cascade while simultaneously supporting the immune system:

- Hamamelis virginiana
- Hepar sulfuris
- Echinacea purpurea
- Millefolium
- Echinacea angustifolia
- Morgan pure

**Reduce Swelling** – Ingredients to slow swelling in the affected tissue to help improve motility and comfort include Mercurius solubilis, Symphytum (comfrey), and Bellis Perenis.

**Slow Bleeding** – Ingredients that promote wound healing and progression to recovery include Hamamelis virginiana, Millefolium, and Aconitum.

**Promote Tissue Regeneration and Recovery** – Targeted ingredients to stimulate tissue re-growth and healthy metabolic activity in target tissue. Ingredients like funiculus umbilicus support the production of stem cells:

- Arnica Montana
- Calendula officinalis
- Chamomilla
- Bellis perennis (daisy)
- Echinacea purpurea
- Co-Enzyme A
- Ubichinon
- Funiculus umbilicus
- Belladonna
- Hepar sulfuris calcareum
- Symphytum (comfrey)
- Echinacea angustifolia
- Carbo vegetabilis
- ATP
- Nadinum
- Glandula supra-renal

DesBio's Pain Management Suite offers the most comprehensive approach to acute and chronic pain.

### TriCuramin

**TriCuramin** is the only botanical product that combats pain with a multifaceted approach to addressing the body's inflammatory pathways. Its triple-action botanical formula includes **white willow bark** (salicin), **Meriva**® (curcumin-phospholipid), and **Boswellia** (boswellic acid) — each of which has been demonstrated in clinical studies to provide effective anti-inflammatory and pain-relieving properties.

### Celeragesic Drops and Gel

Available in both drops and as a topical gel, **Celeragesic** is formulated for acute pain. It contains 27 established ingredients that provide relief for joint pain, muscle pain, sports injuries, and other injuries. It works with the body's natural pain-relieving functions to help improve mobility and flexibility of the musculo-skeletal system safely and effectively.

### Chronagesic

**Chronagesic** is formulated for chronic pain. It contains a mix of ingredients known to be as effective as COX-2 inhibitors in relieving arthritic pain. Its additional ingredients help improve joint and cartilage performance. This unique formula inhibits elastase, the enzyme which is released during an inflammatory reaction, to provide relief.
