

# Get the Most out of Prescribed **VASCUFLOW RS Statin Medications** with

**Cholesterol** is a natural substance that is essential to the proper function of the brain and to production of hormones in the adrenal glands. It is produced by the liver, as well as obtained from dietary sources. High levels of cholesterol especially LDLs (Low Density Lipoproteins)—have been linked to an increased risk of heart disease Many with high cholesterol have turned to prescription in medications.

Statins effectively lower cholesterol by inhibiting the liver's ability to produce it. Now there is a natural way to integrade homeopathic remedies with these prescription medications. **Vascipul RxS** complements prescription Statins with a comprehensive solution that can be added to a patient's prescribed treatment to provide the best in integrative medicine. **VascuFLOW RxS** contains ingredients to:

#### **Reinforce medication action**

**VascuFLOW RxS** contains ingredients chosen to support the body in regulating and optimizing cholesterol production in the liver.

#### **Reduce medication side effects**

**VascuFLOW RxS** contains homeopathic ingredients to reduce common side effects of Statin use, including memory loss, muscle pain, digestive issues, headache, fatigue, difficulty breathing, and difficulty sleeping.

#### Relieve underlying symptoms

VascuFLOW RxS was created with homeopathic ingredients chosen to support the body in regulating lipoprotein production and reducing inflammation of artery walls (see "Cholesterol and Inflammation").

## Regulate core body systems

VascuFLOW RxS contains ingredients to support the body in balancing and regulating the brain and cardiovascular system.

#### **Cholesterol and Inflammation**

Nearly half of all heart attacks occur in people who have normal cholesterol levels. That's because inflammation plays a role in whether or not cholesterol levels become dangerous in the body. If artery walls become inflamed, LDLs (or "bad" cholesterol) can begin to seep into or become stuck on these damaged walls. This aggravates the inflammation, and the cycle of plaque buildup accelerates. Eventually, these plaques break off or break open, spewing cholesterol into the blood. The waxy plaques clog the blood and form clots. If these clots reach the heart, they cause a heart attack, or if they reach the brain, they cause a stroke.

In addition to ingredients that reinforce cholesterol-lowering medications, Vascuflow RxS contains ingredients that operations, Vascuflow RxS contains ingredients that operations and the body's natural ability to relieve inflammation such as interesting into 1, 6, and 8, tumor necrosis factor, and TGF-beta. It includes calcarea carbonate to assist the body's regulation of cholesterol calcification on artery walls and Normalize blood flow, which may be restricted by the plaques that form on artery walls.

## VASCU**FLOW RS** & THE **RS** APPROACH

#### STATIN DRUGS

### **VASCUFLOW RxS**

#### **SOLVE the Problem By:**

#### REINFORCES the Drug With:

- Inhibiting cholesterol production in the liver
- Acetyl CoA, Mevalonic Acid, Squalene, Lanosterol to support liver in regulating cholesterol production

#### May Cause SIDE EFFECTS Like:

#### **REDUCES These Side Effects With:**

- Muscle pai (a) d damage
- Liver damage
- Digestive issues
- Rash or flushing
- Increased risk for type 2 diabetes
- Neurological side effects (Lou Gehrig's Disease, etc.)
- Sleep Issues
- Fatique

- Gelsemium, Go-Q 10, Ubichinon, Rhus Tox to support cles
- Alpha Lipolic Acid, Silibinin to support liver function
- Veratrum Album to support digestion
- Glonoine for rash and flushing
- ??? to support sugar metabolism
- · Acetylcholine, Serotonin, Nux Moschata, Dulcamarra, Calcarea Carbonica, Sulphur to support neurological system
- Chamomile, Melatonin to support healthy sleep
- Lycopodium, Sulphur for fatigue

#### Also RELIEVES Underlying Symptoms With:

- Formalinum, Melatonin, Cholesterlinum, Insulin, Cortisone, Thyroidinum to support healthy blood lipids
- Interleukin 6, Tumor Necrosis Factor, TGF-beta to reduce inflammation
- Calcarea Carbonica to regulate calcification of cholesterol
- Cactus Grandiflorus for angina
- Morgan Pure to improve blood flow

#### Also REGULATES Core Body Systems Including:

- The cardiovascular system, with Cor Suis, Artery Suis, Glandula Supra Renalis Suis, Funiculus Umbilicus Suis
- The brain, with *Plumbum Metallicum, Mercurious Corrosivus*

#### **PRESCRIPTION**

#### **SUPPORT** AT A GLANCE

Many patients take prescription medications and are unlikely to stop using them, even if they are not happy with results and/or side effects.

Patients are interested in using alternative medicine to complement "traditional" medicine. What can we offer them?

RxS products work synergistically with prescription drugs.

They also effectively address symptoms that are not severe enough to justify prescription medications.
