## ABOUT THIS EVENT

Your most important role as your patients' healthcare advocate is to empower them to take charge of their own health. This includes educating them on some of the less understood factors that are contributing to their current state, as well as providing the tools they need to be proactive. **In this seminar, we discuss emerging research and corresponding innovative clinical strategies.** Go beyond the basics and learn how you can address mold toxicity, chronic viruses, and parasites, and have a real impact on your patient outcomes.

**Our experienced clinicians will discuss diagnostic strategies, clinical pearls, case studies, and break-through support protocols.**

## TOPICS INCLUDE

- Breaking the Mold (Jeff Thomas, ND)
- Opening A Can of Worms: Parasite Detoxification (Angie Ates, ND, CNHP, CNC, CHS, MH)
- The Cell's Potential to Heal (April Torres, CHS, CNHP)
- Series Symptom Relief: The Connection Between Viruses and Chronic Fatigue (Angie Ates, ND, CNHP, CNC, CHS, MH)
