

This one-day seminar will focus on the sneaky, insidious, and often undetected culprit behind today's most rampant symptoms.

Two expert practitioners will focus on the science, diagnostic tools, and support strategies used in managing chronic viruses, Lyme disease, candida, parasites, Epstein-Barr Virus (EBV) and more.

Attendees will learn strategies of how to navigate complex cases and clinical pearls from practitioners who have treated hundreds of cases.

Saturday, April 6, 2019

Hilton Garden Inn
