

Are your patients coming to you with symptoms that seem unexplainable? Mysterious, idiopathic illnesses are running rampant, and uncovering the source can feel like a hopeless game of 21 questions. In this seminar, we will look at some of the sneakiest culprits behind your patients' health issues; including the relationship between viruses and chronic fatigue, HPV, fertility, and men's health issues.

Here is an opportunity to learn from experienced clinicians about some of the more challenging and less-understood health concerns emerging in your clinical practice. Speakers will discuss diagnostic strategies, clinical pearls, case studies, and break-through support protocols

Saturday, June 1, 2019

MEDICAL DETECTIVE:

Catching the Hidden Culprit Behind Your Patient's Illness

JUNE 1, 2019 | SALT LAKE CITY, UT

SHANNON WHITE, DC, DABCA

Dr. White practices in West Des Moines, IA utilizing homeopathic remedies, herbs, and acupuncture. She specializes in family health with an emphasis in pediatrics. Dr. White lectures at symposiums throughout the country speaking on conditions such as Lyme disease, infertility and child issues, anxiety, depression, and gut health.

JEFF THOMAS, ND

Dr. Thomas is a licensed naturopath practicing at Northwest Wellness in the Seattle area. Throughout his clinical career, Dr. Thomas has integrated a multi-disciplinary approach to individualized, patient-centered, patient-focused healthcare.

SHERRY TACKETT, WHCNP, L.Ac

Ms. Tackett has a MS in nursing as well as a Women's Health Nurse Practitioner degree. She has extensive experience in bio-identical hormones, homeopathics and herbal medicine for women. She practices in Phoenix, AZ, using an integrative approach to health care, using both conventional and traditional modalities.
